

MISTAKES

Where: <https://www.shino.de/parkcalc/>

When:

1. When entering information such as “letters” in the **START DATE** field and selecting the option to **CALCULATE**
2. When entering information such as “letters” in the **END DATE** field and selecting the option to **CALCULATE**
3. When entering information such as “letters” in the **START TIME** field and selecting the option to **CALCULATE**
4. When entering information such as “letters” in the **END TIME** field and selecting the option to **CALCULATE**
5. When entering information such as “special characters” Ej: (/’{+.,.). The field **START DATE** and selecting the option to **CALCULATE**
6. When entering information such as “special characters” Ej: (/’{+.,.). The field **END DATE** and selecting the option to **CALCULATE**
7. When entering information such as “special characters” Ej: (/’{+.,.). The field **START TIME** and selecting the option to **CALCULATE**
8. When entering information such as “special characters” Ej: (/’{+.,.). The field **END TIME** and selecting the option to **CALCULATE**

Finding:

- 1.2.3.4.5.7.8. The system calculates the parking value incorrectly

Expected result:

- 1.2.3.4.5.7.8. The system must not allow entering special characters or letters in the Start Date, End Date, Start Time and End Time fields.

IMPROVEMENTS

Where: <https://www.shino.de/parkcalc/>

When:

1. At the moment enter a search criteria for all fields and select the radio button PM and select the option **CALCULATE**
2. At the moment enter a date of more than one year in the **START DATE** and **END DATE** fields

Finding:

1. The system change the position the radio button to AM.
2. The system show in days the amount of time that the payment will be made.

Expected result:

1. It is recommended either that all the fields are cleared when selecting the PM option or that you keep everything as they were initially configured.
2. It is recommended that it shows the time in years, months, hours and minutes.

2. Se sugiere que muestre los años para poder mitigar la fatiga visualizar de que calcule los días ejemplo
Año 1 Días 30 Horas 5 Minutos 2
